

## AMUT continued success in Asia

(Novara, Italy – 20 May 2020) - The Amut Group takes a further step in its growth trajectory in Asia.

Following the latest success scored in the region, the Italy-based group is now committed to maintain its strong position as a preferred partner for CHIP MONG GROUP in the South East Asian market, by providing an additional extrusion line for the expansion of its production facility in Cambodia.

The factory is currently equipped with four Amut's lines to extrude rigid pipes in UPVC suitable for electrical and sewage purpose, flex and corrugated pipes in HDPE and UPVC.

The highly-performing additional extrusion line will be designed to produce UPVC pipes with diameters ranging from 63 mm up to maximum 250 mm and an overall output of 600Kg/h.

Amut is proud to support again CHIP MONG GROUP in the delivery of a new custom-engineered plant which will be conceived by the interdisciplinary design and engineering extrusion technology center of excellence in Italy, to respond to customer expectation.

The company is deeply committed in generating value for customers, focusing on state-of-the-art project design execution.

### About AMUT

AMUT, established in 1958 is a global turn-key plastic processing and recycling system designer and manufacturer.

Over the years the company has evolved considerably and become a group of companies providing customers with an increasingly extensive range of high quality Extrusion, Thermoforming, Recycling, Flexo Printing and Converting machinery, turn-key plants and related Services. The world Headquarters and production facility is AMUT S.p.A. which is located in Novara (Italy). Operating globally the group's offices and customer service centers are strategically located in U.S.A., Canada, Brasil and South East Asia. This international presence is further enhanced through an efficient worldwide agent network.
